Good afternoon Mr. (b) (6)  
As part of the continuing environmental investigations being performed on the Wilcox Oil Company Superfund Site, the Environmental Protection Agency (EPA) would like to sample the abandoned water well on your property located in Bristow Oklahoma.

Earlier today you and I spoke about this over the phone and you indicated that you have no objection to the EPA removing the well house or other obstacles that would prevent the collection of a water sample from the well.

You had indicated that you had moved onto the property in 1992 and the condition of the well was unknown at the time, and that the well had been used by the previous property owner.

Thank you for you cooperation and working with EPA and DEQ on this matter. Your agreement to let EPA sample your well will assist in the further understanding of the environmental conditions on the Site.

If you have any questions or concerns, feel free to contact myself, or Katrina Higgins Coltrain (214) 665-8143.

Have a good day,
